## ❖ Dear Sirs and Madams

Let me introduce our Korea Plant Cooperative.

Our plant construction maintenance business cooperative is composed of specific companies that play a leading role based on their advanced technology and know-how in the core areas of the national infrastructure industry including petrochemical plants.

The cooperative is made up of companies with different category of the business, and its members are made up of competent companies with more than 15 years of experience at the field of construction, maintenance and equipment & material supplement for the Refinery, Petrochemical, Power plant, and Environment.

Based on this experience of domestic business, this cooperative was formed to actively enter the global stage for overseas plants. By forming and operating an advisory group who have long experience, it is expected to double the competitiveness in the global market and contribute to profit creation of each cooperative member company.

Therefore, with the unlimited sense of responsibility and belief that all of the plant construction maintenance business cooperatives play a pivotal role in the industry, Korean professional companies can provide a solution that satisfies overseas customers through the package process package in all necessary industries. We promise to provide a higher level of technology and services to customers all over the world, beyond regions and countries.

Thank you very much.

*Myung-Hwan Choi*  
Chairman  
Korea Plant Cooperative
